Dear Sirs,

Since 2005 “Specmebel” (a limited liability company) has been focusing its efforts on design and innovative solutions in the sphere of commercial changing-room systems of international level. In the last 10 years we have significantly succeeded in this field: basing on the European experience and regarding the Russian rules and regulations the “Norma” series has been designed and introduced as a personal brand of the “Specmebel” Company. The series is unique furniture, provides long-term durability in various industrial areas and in sports as well. Our complex approach enables to solve all the problems on arrangement changing-rooms of any level and needs for guests and staff. We offer You very comfortable lockers for cloths, our unique dust- and water removal system, forced ventilation system, optimal methods of storage and distribution work clothing, no-key access to the lockers (“Free-Hands” systems), access-control systems, made-to-measure for specific application, multi-purpose cupboards. Our products create in the changing rooms an atmosphere of care and comfort, reduce maintenance costs, is an important part of corporate culture of each Company.

Our main advantages:

- Strict fulfillment of the customer’s requirements;
- Thought-out design that gives our products high consumer quality, longevity and vandal-resistance;
- Great choice of colors and decors allows the lockers to match the corporate image of our Customers;
- Flexible commercial terms;

Hundreds of Russian and foreign Companies have already appreciated the quality of our products and service, among them the organizers and participants of the G-20 Summit in Saint-Petersburg, the E-Government, industrial, educational, medical, sport enterprises, companies of entertainment and hospitality industry.
